TITLE Report of the Distribution of Financial Assistance to Students in Florida's Community Colleges, 1976-77.
INSTITUTION Florida State Dept. of Education, Tallahassee. Div. of Community Colleges.
PUB DATE Apr 78
NOTE 22p.

EDRS PRICE MF-$0.83 HC-$1.67 Plus Postage.
DESCRIPTORS Community Colleges; Ethnic Groups; Federal Aid; Females; Grants; *Junior Colleges; Males; Minority Groups; Scholarships; *State Surveys; Statistical Data; *Student Financial Aid; Student Loan Programs; Work Study Programs
IDENTIFIERS *Florida

ABSTRACT

Information from Office of Civil Rights (OCR) report forms pertaining to distribution of financial aid to all Florida community college students for fiscal year 1976-77 comprises this report, intended for college, state, and federal level decision- and policy-makers. Data are organized in tabular form. Table 1 is a summary of aid for the year, showing the number of awards (n=78,497), the total dollars awarded ($38,331,183), and the average amount per award for each specific award type and major category as well as the number of unduplicated recipients (n=56,088). Tables 2 and 3 summarize aid according to five racial/ethnic groups: blacks, American Indians, Asians, Hispanics, and whites. Table 4 shows the relationship between fall 1976 enrollment and financial assistance distribution by racial/ethnic group for fiscal year 1976-77. Table 5 summarizes aid by sex within the major aid groups (loan, grant, and scholarship recipients and employed students). Tables 6, 7, 8, 9, and 10 are summaries of aid by college and major aid group. Table 11 displays trends in total student assistance distribution from 1974-1977, involving increases for all years in almost every category except loans, which decreased during 1976-77 in dollar amount, number of awards, and number of recipients. Instructions for completing the OCR report forms in terms of each information category are included. (TR)

A Report of the Distribution of Financial Assistance
to Students in Florida's Community Colleges

Introduction

The purpose of this report is to provide decision- and policy-makers with summary information which accurately reflects the distribution of financial aid funds to students attending Florida community colleges. It is probably the most comprehensive compilation of information on financial assistance to community college students in Florida that has been developed to date. It is hoped that the value of this information to college, state, and Federal level decision-makers will offset the cost of collecting it at each college.

The information presented in this report was obtained from each Florida community college on the Office of Civil Rights (OCR) report form entitled "Financial Assistance to Students in Institutions of Higher Education", (OCR 3000B3). This is a form showing the financial aid awarded to the students through each college during the 1976-77 school year. The detailed instructions and definitions are presented following the tables displaying the summary information. The reader should review these to provide a better understanding of the data categories reported.

If more detailed information is needed it can be obtained upon request from the Division of Community Colleges Management Information System.

Discussion of Tables Presented

Table 1 - Summary of Financial Assistance to Students in Florida's Community Colleges, 1976-77. This table shows the number of awards, the total dollars awarded, and the average amount per award for each specific award type and major category. It also shows the number of "unduplicated recipients;" i.e., the number of individuals receiving aid. The following are specific points of interest observed from the table:

- The number of awards (78,497) exceeded the unduplicated recipients (56,088) by 22,409. The ratio of awards to recipients was approximately 4 to 3. This means that a large number of students are receiving more than one award.
- 67% of the aid dollars were for "Grants".
- 84% of the "Grant" dollars were for "BEOG".
- Approximately $22.7 million (88%) of the "Grant" dollars were from Federal programs.
- Only 14% of all student aid was for "Loans" which require repayment.

- Only 16% of the aid dollars were used for "Student Employment".

- When "Loans" are not considered, there was little variance among Average Amounts/Award.

Table 2 - Summary of Financial Aid to Students by Race/Ethnic Group. This table shows the distribution of financial assistance to the five major race/ethnic groups. The following specific points were noted:

- Blacks received 38% of all awards whereas this group received 41% of the dollars.

- 40% of all "Grants" went to Blacks whereas they received 45% of the "Grant" dollars.

- The amount per award varied little among all categories and races except "Scholarships".

- 69% of all "Scholarships" and 78% of those dollars went to Whites. These were much higher proportions than for other categories.

Table 3 - Summary of Financial Aid to Students by Race/Ethnic Group. This table is the same as Table 2 with the exception that the percents are for the columns rather than rows.

- 74% of the total awards to Blacks were in the form of "Grants". This group also received 74% of the total dollars.

- 66% of the total awards to Whites were in the form of "Grants" while 59% of the dollars to Whites went for "Grants".

Table 4 - Comparison of Enrollment to Financial Aid Distribution. This table shows the relationship between the Fall of 1976 enrollment and the distribution of financial assistance by race/ethnic group for Fiscal Year 1976-77. The Fall headcount is used simply as an indicator of the percent of each group attending community colleges. In other words, to make this comparison one has to assume that these percents were relatively consistent over the year.

- Blacks made up 13% of the college enrollment, but 37% of all aid recipients were Blacks and they received 41% of all aid dollars.

- Whites made up 79% of the college enrollment and 54% of all aid receipients were Whites receiving 47% of all aid dollars.

Table 5 - Summary of Financial Aid to Student by Sex. This report is designed to show the distribution of financial assistance by sex for the major aid groups.

- 56% of the total recipients were females and they received 60% of all aid dollars. Percents of male and female were almost equal in the Fall enrollment.

- Females outnumber males in every aid category.

Tables 6, 7, 8, 9, and 10 - Summary of Financial Assistance by College and Major Aid Group. These tables show the number of aid recipients, total dollars distributed, and average amount per recipient for each college and each major aid group. The annual unduplicated headcount is provided as an indicator of the size of each college.

Table 11 - Trends in the Distribution of Total Student Financial Assistance in Florida's Community Colleges, 1974-1977. The table shows increases over three years in almost all categories. One exception is "Loans" which show marked decreases in 1976-77 in the dollar amount, number of awards, and the number of recipients. However, the amount per award and the amount per recipient were up for "Loans". The same year shows slight decreases in "Student Employment" in the number of awards, and the number of recipients. All dollar amounts for "Student Employment" were up slightly. Average "Scholarship" awards decreased slightly in value.

Instructions for OCR 3000B3
Financial Assistance to Students in Institutions of
Higher Education

Scope of Reporting Form

OCR 3000B3 is designed to collect data concerning the race/ethnic identification and sex of students applying for financial assistance; granted such assistance; and, the amount of the financial assistance. The report covers full- and part-time students and includes all financial assistance regardless of whether a reporting institution actually makes the awards and loans or only administers them.

Race/Ethnic Identification

An individual is reported in the minority group to which he appears to belong; is regarded in the community as belonging; or categorizes himself as belonging. The race/ethnic designations used in this report do not denote scientific definitions of anthropological origins. Only the specified minority categories need to be reported. American Indian or Alaskan Native is for reporting persons having origins in any of the original peoples of North America. Asian or Pacific Islander is for reporting persons having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands. This includes, for example, China, Japan, Korea, the Philippine Islands, American Samoa. Black (not of Hispanic Origin) is for reporting persons having origins in any of the black racial groups. Hispanic is for reporting persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race. White (not of Hispanic Origin) is for reporting persons having origins in any of the original peoples of Europe, North Africa, the Middle East, or the Indian subcontinent. Resident aliens are reported in the appropriate ethnic categories along with citizens of the United States; non-resident aliens are reported separately.

Unduplicated Number of Recipients

The sum of all persons receiving aid from one or more of the assistance programs. In computing this figure, each recipient is counted only once, even if he received assistance from more than one aid program in a category (e.g., BEOG and an Institutional Grant) and/or from more than one aid category (e.g., a grant and a loan). The unduplicated count requested totals the number of unduplicated recipients for all categories of aid. This count may not be equal to the sum of the unduplicated recipients in the four assistance categories because some students may have received aid from more than one category.

Grants

This category of financial assistance includes awards that are made outright (require no repayment in service or cash). Any type of tuition waivers or remissions for students represents a type of financial assistance and are included in the Grants category. Scholarships (awards based on skills and/or academic attainment) are not reported in this category. The various types of grants are:

BEOG (Basic Educational Opportunity Grants). Federally funded direct student grants authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards should be consistent with the data reported by the institution in the BEOG Fiscal Operations Report.

SEOG (Supplemental Educational Opportunity Grants). Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the SEOG Fiscal Operations Report, OE Form 1152.1.

VOCATIONAL REHABILITATION. Authorized in the Rehabilitation Act of 1973 (P.L. 93-112), with matched Federal/State funding.

STATE AND LOCAL. Includes all State and Local government grants (e.g., Florida Assistance Grant) but does not include those funds allocated by the State to the institutions.

PRIVATE SOURCES. Includes any non-government source which provides for grants.

INSTITUTIONAL GRANTS. Includes those grant awards provided entirely by the reporting institution.

TUITION WAIVERS. Includes all types of tuition waivers and remissions to students enrolled at the reporting institution.

ALL OTHER GRANTS. Includes all other Federal grants and any type of grant not specifically addressed above.

Scholarships

This category of financial assistance includes awards to students which are outright (require no repayment in service or cash) and which are based on skills and academic attainments to determine recipients.

Loans

This category of financial assistance includes loans that require repayment. The category has two sub-categories: Repayable by Cash Only; and, Repayable by Cash or Service (or both). The various types of loans are:

NDSL (National Direct Student Loans). Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the NDSL Fiscal Operations Report, OE Form 1152.1.

FEDERALLY INSURED STUDENT LOANS. Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. This is an area of financial assistance where a direct loan from a lending institution to a student may not be recorded by the reporting institution; however, all known Federally insured loans are to be reported.

STATE INSURED LOANS. Authorized under Title IV of the Higher Education Act of 1965, as amended.

INSTITUTIONAL LOANS - REPAYABLE BY CASH ONLY. Includes those loans provided by the reporting institution that only can be repaid by cash.

LOANS THROUGH PRIVATE SOURCES - REPAYABLE BY CASH ONLY. Includes those loans provided by any non-government source which are not Federally insured and which are repayable by cash only.

ALL OTHER LOANS - REPAYABLE BY CASH ONLY. Includes all other types of loans, repayable by cash only, which are not specifically addressed in categories above.

INSTITUTIONAL LOANS - REPAYABLE BY CASH OR SERVICE. Includes those loans provided by the reporting institution that may be repaid by cash or by service.

PRIVATE SOURCES - REPAYABLE BY CASH OR SERVICE. Includes those loans provided by any non-government source which are not Federally insured and which are repayable by cash or service.

ALL OTHER LOANS - REPAYABLE BY CASH OR SERVICE. Includes all other types of loans repayable by cash or service which are specifically addressed above.

Student Employment

This category of financial assistance includes student employment work opportunities such as the College Work/Study Program, Student Assistantships, or any other type of student employment at the institution. These types of work programs are:

FEDERAL PROGRAM - COLLEGE WORK/STUDY. Federally funded assistance program authorized under Title IV of the Higher Education Act of 1965, as amended. Dollar amount and number of awards, by ethnic category, should be consistent with data reported by an institution in the College Work/Study Fiscal Operations Report OR Form 1152.1.

INSTITUTIONAL STUDENT EMPLOYMENT. Includes the student earnings from the reporting institution's own employment program. Employment may be on or off campus.

ALL OTHER STUDENT WORK/STUDY. Includes all other types of work/study programs that are not financed by the Federal College Work/Study Program.
